DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In Claim 1, the notation "m+n 3" on line 13 and the group "-C C-" on line 16 are incomplete. Also, the claim language "and, applying similarly to compounds equivalent to the above using combinations of the abbreviations" at the end of the claim cannot be understood.

Claims 2-13 are vague because Claim 1 is claimed as a composition not a compound. It is noted that Claim 21 is also vague.

In Claims 14-15, the claim is an independent claim but the ring A and m are not defined.

In Claims 16-20, the notation L is not defined.

In claim 20, the formula V-1 is not defined.

Claims 22-24 are rejected because they are depended on Claim 21.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1756

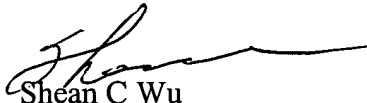

3. Claims 1-15 and 21-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Petrzilka et al. (US 4,432,885).

The reference discloses a decalin represented by the formula I. The reference compound is useful for liquid crystal mixture and electro-optical device. See compounds XXIX and XXVI in Scheme A. Also see Scheme 1. The reference anticipates the claimed invention.
